

Centilla Corporation is a strategic supplier of IT equipment, industrial supplies, military products, and aircraft components. We focus on providing communications and data networking equipment, to include hardware and software, to Military, educational, Federal and State government agencies. Through our industrial partners we are able to provide and source all industrial requirements for the Military and Federal Government.

Centilla Corporation is a certified Woman Owned Small Business. We partner with SDVOSB, 8(a), and Native American owned small businesses. With these certifications and partners, we create an advantage in the Government procurement process. Our core competencies are: Competitive pricing, timely worldwide delivery, top-notch customer service and excellence in all we do.

Our team of dedicated professionals includes former military and executive personnel who understand the critical role that procurement process entails. Our extensive IT, industrial, military, and aircraft component expertise allows us to quickly determine the best way to fulfill your need. Please give us a call and an opportunity to earn your business.
